

Poundstock Parish Council

Conditions and Procedures

1 Introduction

- 1.1 Poundstock Parish Council acknowledges the importance of the cemetery as a place commemorating the life of a loved one and acting as a focus for grief. The Council therefore makes every effort to manage its cemetery in a way that enables it to maintain the highest possible standards of care and dignity, whilst at the same time respecting the rights of the individual and not placing undue restriction on individual choices. To assist with this the Council respectfully requests that all visitors to the Cemetery follow these rules and conditions.
- 1.2 Poundstock Parish Council as the Burial Authority has in pursuance of the General Powers of Management contained in Article 3 (1) of the Local Authorities' Cemeteries Order 1977 made the following Rules and Regulations to be observed in the Cemetery under its management.
- 1.3 For the purpose of these regulations, 'The Council' means Poundstock Parish Council and 'Memorial' means any headstone, monument, cross, flagstone or any other erection placed for the purpose of a memorial over any grave.

- 2.8 Cremated Ashes - It is not possible to scatter ashes in the Cemetery.

3 Procedures

- 3.1 A request for interment must be made in advance to the Clerk of the Council.
- 3.2 The Clerk will respond to the applicant in writing and a plot will be allocated.

- 3.3 The Notice of Interment and Certificate for Burial or Cremation/Registrar's Disposal Certificate/Coroner's Order must be provided before the interment.
- 3.4 If the Certificate for Burial or Cremation, Registrar's Disposal Certificate/Coroner's Order is not available, the Funeral Director must complete a declaration that is contained within the Births and Death Registration Act 1926 section 1 (1).
- 3.5 All grave spaces will be allocated by the Council.
- 3.6 The Council is prepared to consider the sale of grave space to a resident prior to it being required for burial purpose notwithstanding all grave spaces will be allocated by the Council.
- 3.7 Following interment, the undertakers will ensure that the spoil is replaced firmly to ground level and the previously removed turf is placed on top.
- 3.8 All unused spoil must be removed to the area allocated or removed from the Cemetery after interment.
- 3.9 Only human remains may be interred in the Cemetery. Out of respect for the relatives it is possible to accommodate a small personal item provided it can be contained within the coffin.

4 Exclusive Right of Burial Information (EROB)

- 4.1 The person or persons who purchase a plot own the EROB and will receive an EROB certificate from the Council.
- 4.2 Ownership of an EROB does not imply ownership of the land itself or the right to carry out any particular activity on the grave plot. The ownership of the cemetery land including the grave surface remains with the Council.
- 4.3 A purchased grave (also known as a private grave) is one where the EROB has been purchased for a period of 99 years from the date of the original purchase and will be excavated to a depth which will allow the eventual interment of one or two coffins or one or two cremated remain urns. Except in the case when cremation remains are interred on an existing grave, where there is to be more than one interment per plot – notice of this must be given at the initial purchase time. Cremated remains can only be interred on an existing grave after the last coffin burial has occurred.
- 4.4 If the registered owner has died, the EROB must be transferred. It is advisable that the family/next of kin organise the right to be transferred to avoid potential delay in any ensuing matters – i.e. memorial/inscription or subsequent burial. Ownership of an EROB may be transferred, or assigned by use of the relevant form which can be obtained from the Council. The law concerning this matter can be very complex and it is strongly recommended that a solicitor be consulted to establish ownership. No excavation or erection of a memorial or memorial inscription will be permitted unless a satisfactory explanation of who is the current owner of the EROB has been provided to the Council.
- 4.5 Possession of an EROB does not give the person, in possession, the ownership of the EROB. A grave for which an EROB applies can only be opened with the permission of the registered owner of the EROB unless the interment is to be that of the registered owner.
- 4.6 It is important to retain the ERIB in a secure place as it is the only legal document held by the owner confirming their entitlement to the burial rights.

Any work undertaken without the written permission of the Council will be removed without notice and all costs charged to the registered owner and if necessary, there will be a charge on the grave space.

- 5.7 The Council will make regular checks of memorials. Any memorial found to be unsafe will be laid flat. The Council reserves the right under Health and Safety legislation to lay flat unsafe memorials at its discretion if the owner or successor cannot be found or refuses to arrange repairs.
