**PA21/12286** Proposal: Application for approval of reserved matters following outline approval PA21/03047 dated 27.07.2021: Three Dwellings (plots 1-3) Location: The Cottage Leverlake Road Widemouth Bay Bude EX23 0AF.

**RESOLVED** to maintain the original objection and make no further comments. **239/22**

**PA22/05504** Proposal: Outline application for the erection of a dwelling with all matters reserved other than access, following demolition of the existing annex building. Location: Land North of Swelle Cottages Poundstock Bude Cornwall.

**RESOLVED** to object for the following reasons; the application site is located outside of the established and definable limits of any settlement, and does not represent infill or rounding off as defined in Policy 3 of the CLP. The proposed building is not previously developed land. The proposal would represent a residential unit of accommodation in the countryside where no special justification has been satisfactorily demonstrated.

By reason of its location, not adjacent to any defined settlement, the application site is not considered to be sustainably located and would not accord with Policy 21 of the CLP. No special justification has been adequately demonstrated to outweigh the harm of this proposal to the character of the open countryside.

The three planning applications mentioned by the applicant being PA16/09205, PA17/00203 and PA17/08655 are all applications for dwellings within the development boundary of the village of Bangors which is classed as a settlement. As such they do not set a precedent for development in this case.

The development is therefore contrary to Policies 1, 2, 3 and 21 of the CLP. The Parish Council has referred to PA20/00228 in reaching its conclusion to **OBJECT** to this application. **240/22**

Cllr. Gemma Watton gave the report for the Crematorium Working group. A reminder was given of the Technical Briefing to be on 21 July 2022 at 11:00 am via video conferencing, Kris Mitre of Genesis Town Planning will be representing the Parish Council. The following Councillors verbally confirmed their attendance; Robert Gavin, Gemma Watton, Pamela Idelson and Tom O’Sullivan. The group is currently working on public engagement using public notices, signs and a website at a cost of up to £1,000.00.  
**RESOLVED** to provide the Crematorium Working Group with a budget of up to £1,000.00 towards public engagement, website, signs and public notices. **251/22**

Further **RESOLVED** to make an additional comment on the planning portal that the Parish Council has further considered this application and in addition to all previous comments submitted wishes to raise concerns that due consideration is not being given to the issue of toxic emissions that would be caused by the crematorium. This is a concern raised by numerous parishioners in their own objections. The Parish Council takes the view that this is in contravention of Policy 16 (Health and Wellbeing) of the Cornwall Local Plan.

It is the Parish Council’s understanding that the application is based on government guidance that is 10 years out of date. Recent research has shown that radiation is an issue and since the 2012 guidelines were published concern has been raised regarding the burning of MDF coffins.

The Applicant for the crematorium acknowledges that it would result in emissions into the

air which have the potential to impact on local air quality in terms of both human and ecological receptors. The applicant has not, in the Parish Council's view, appropriately considered how far the toxins will travel because of wind speed. Wind speed in the area is far higher than the national average. As such government guidance on distances from crematoria to residences is inappropriate in this situation. Given the prevailing wind the toxic emissions have a greater opportunity to land on residential areas, such as Widemouth Bay, Marhamchurch and denser populated areas such as Bude.

The Parish Council also forms the view that Cornwall Council have a duty to consider climate change when considering developments to ensure sustainability. It needs to be a sustainable location that has a greater need and catchment area. This development fails to plan for climate change.

Therefore, in addition to all other reasons for **STRONGLY OBJECTING** to this application the Parish Council also objects based on the application being contrary to Policy 16 of the Cornwall Local Plan and lack of consideration of climate change and sustainability. **252/22**

**13. NDP Steering Group to receive reports and authorise any action and expenditure: **253/22****
