POUNDSTOCK PARISH PLAN 2008 to 2013

(incorporating the communities of Poundstock & Widemouth Bay
Bangors, Treskinnick, Helscott, New Mills, Penfound,
Tregole and Trewint)

WELCOME TO OUR PARISH PLAN.

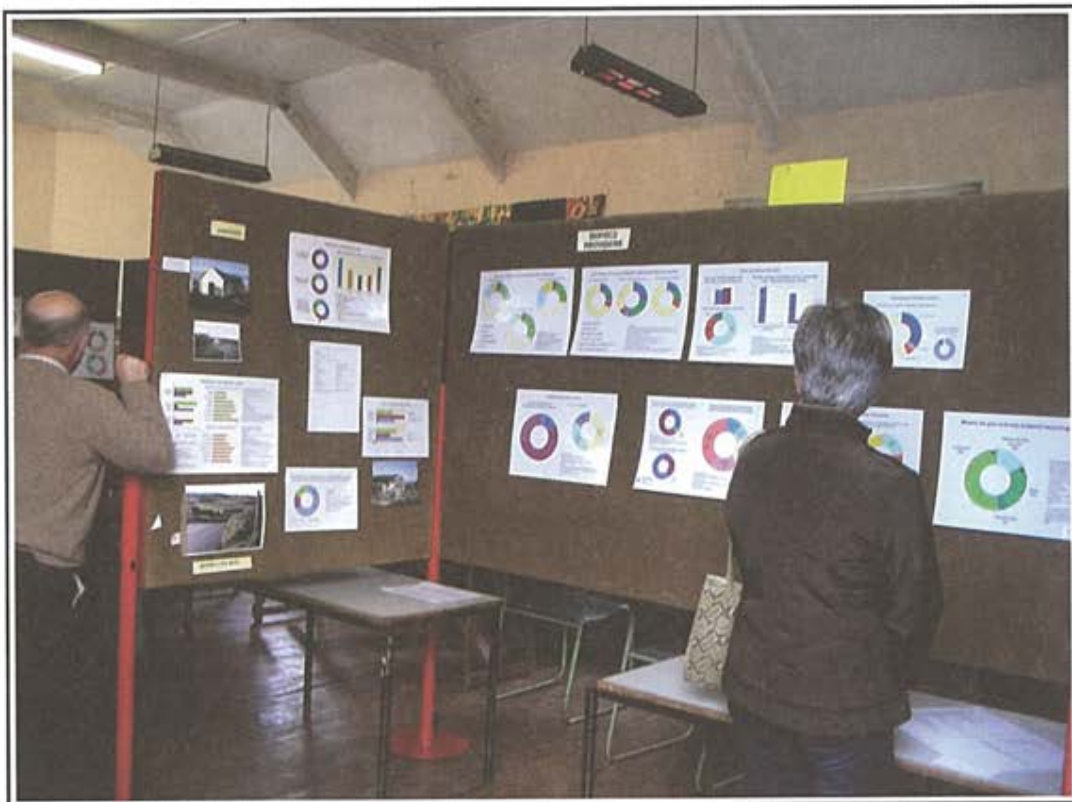

Already we have seen some benefits of starting down this long and bumpy road, if it has been only to identify the concerns of residents who, until now, have not had the opportunity to express their concerns. The policies in this document are derived directly from the feedback you gave us through the Questionnaire which was circulated in the summer of 2007. A summary of all responses is available in Bude Library or through our Parish Clerk. We have tried to cover all aspects of living in this parish and have reflected all views where there was a considerable majority for or against a proposition. In some cases there was feedback which gave us pause for thought and you will find some of these issues in the Statements pages.

This is the only document we are producing and it has been funded by North Cornwall District Council (NCDC) and Cornwall Rural Community Council (CRCC), to whom we are indebted for their guidance. We have not followed the conventional path of a limited issue fat book and a circular to all residents. Instead you have this calendar. It's not perfect but we hope you will find it of lasting use and even persuade you to participate more fully in these times of change when we are about to lose one elected layer of governance. We look forward to a smooth transition and hope to continue playing our part effectively in representing you, the parishioners of Poundstock.

Colin Gilbert
Chairman of Poundstock Parish Council

ACKNOWLEDGEMENTS

This has been a community effort and appreciation is expressed to everyone who helped - from the funding and assistance from NCDC and CRCC to the participation by all who attended the special events and those who took time to fill in the Questionnaire on which this Plan has been based. Our thanks go to those who gave us a hospitable welcome at the special event venues, to Philippa Arthan who analysed all the data, and to Alison Rowland and Rupert Powell for the graphic design and the keyboard work respectively, not forgetting the children who produced such magnificent material for our Prioritisation Event in December 2007. Also my thanks to the Parish Council & our Working Party Team, including Veron Bright, Hilary Bryant & Lynn Pluess who have given up their evenings over the last 33 months. This has been a mammoth task and I hope you'll excuse any errors and omissions. We did our best.

HOW TO READ THE PARISH PLAN:

The 53 weeks of the calendar year contain all the policies which have evolved from the 2007 Parish Plan Survey (the Questionnaire), together with explanations why some suggestions have not been adopted and useful information about what goes on in the area. The lower (diary) page is designed to be informative and attractive and summarises the content of the page above.

The upper page therefore comprises:

"What this means and why" enlarging on how the policy has been derived and its intended effects;

the "Priority Rating" derived from the degree of support for each proposition in the Survey and the star rating achieved at the Prioritisation Event in December 2007. It should be appreciated that some elements will be easier to achieve than others and will therefore be fulfilled earlier than the rating might suggest. The rating should be regarded more as an indication of the amount of effort which will be applied to each element;

the "Sustainability Ratings" as defined by the Government and provided by NCDC.

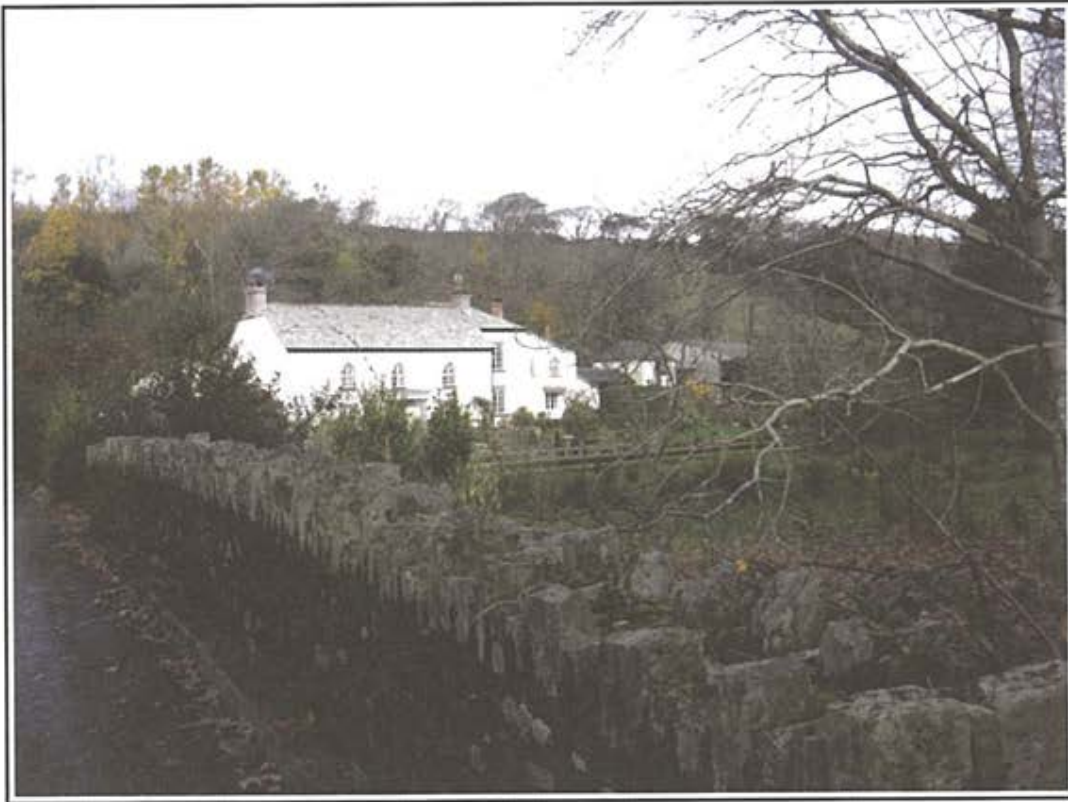

These are:- "Building Sustainable Communities" "Buildings, Planning & Land Use" "Managing the Environment & Resources" "Health" "A Sustainable Economy" "Housing" "Social Equity & Opportunity" "Transport" "Sending the Right Signals",

and an index to help you find your way around and see if a subject which concerns you has already been addressed.

(Remember: ten minutes is set aside near the beginning of all Parish Council meetings to enable you to bring things up.)

SOME OF THE MAIN CONCERNS.

There is a growing awareness that throwing money at something does not always provide a solution which we will later be able to support. Coupled with "Green" concerns, this forms the basis of the Sustainability Ratings in our Plan. To some, the following notes may be self-evident but nevertheless it may help to define objectives for the future invigoration of our Parish.

Affordable Housing - A better and more wide-ranging supply of affordable housing to rent and for sale will have a positive effect on other areas of local life. Young people are more likely to stay in the area if they can afford to live locally.

Quality Jobs - A good supply of easily accessible better paid jobs will encourage young people to stay in the district. .

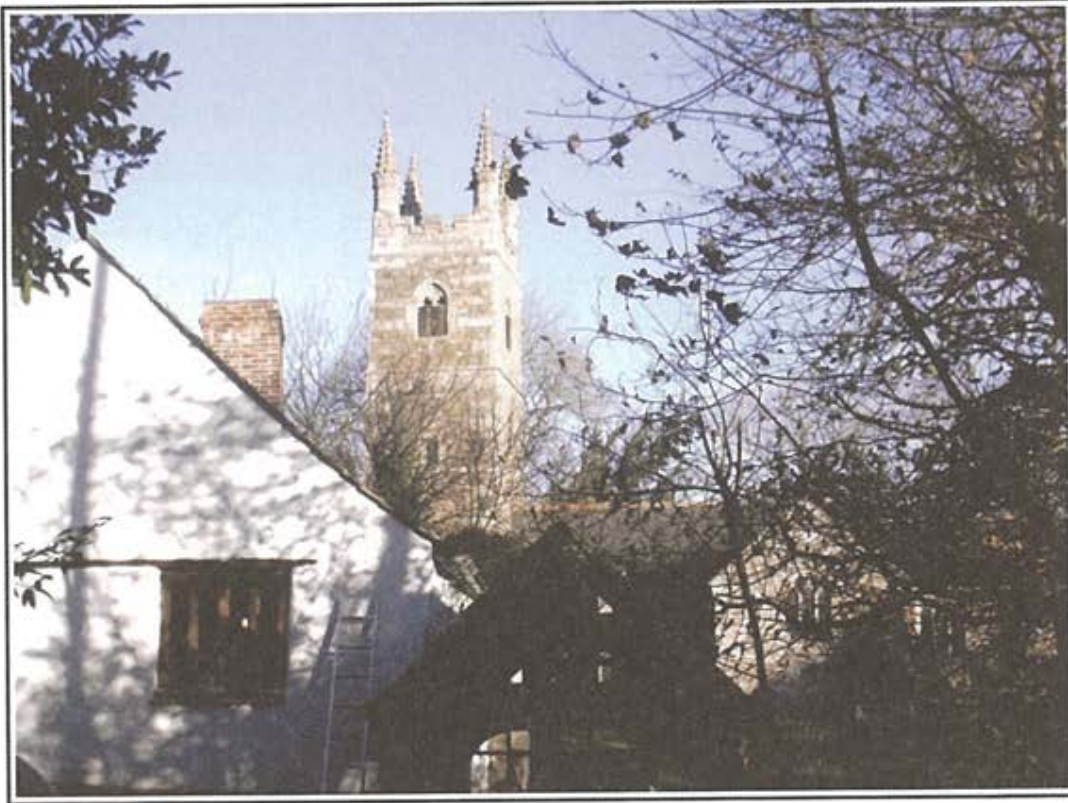

Waste reduction and recycling - A high participation rate also indicates a measure of community pride and engagement.

Healthier lifestyles mean good physical and mental health supported by fit and healthy living conditions and access to physical exercise and social activities.

Dynamic communities - involves the building of cohesive communities with strong networks and a diverse range of opportunities for residents.

THE BUILT ENVIRONMENT POLICY 1

WHAT THIS MEANS AND WHY. At the prioritisation event in December 2007 the vicinity of Bangors was identified by residents as the natural centre of Poundstock. "Poundstock" as a village consists of three components: Bangors, Treskinnick and, to a lesser extent, the Parish church vicinity. No one wants to see wholesale development merging these three together but there may be ways in which some housing development linked with subtle land use changes, could create a greater sense of identity. We will never get our school back, but we must build on what we have and the immediate local community will be directly involved in any approach initiated by the Parish Council

Priority rating- Highest

Sustainability rating: uncertain pending outcome. Enormous potential to tick "Building Sustainable Communities" "Buildings, Planning & Land Use" "Managing the Environment & Resources" "A Sustainable Economy" "Housing" "Social Equity & Opportunity" but will need extensive public consultation.

WEEK 7						FEBRUARY

8 Showdrops at Pencarrow	9	10	11	12	13	14 

THE BUILT ENVIRONMENT POLICY 2.

WHAT THIS MEANS AND WHY: From the Questionnaire, it was revealed that there is overwhelming support for provision of affordable housing to people with local connections. 54 respondents, either themselves or their immediate family, had need of affordable housing. Whatever overall policy might be in place at any one time, commercial factors make it unlikely that this demand will be satisfied in the normal course of redeveloping existing residential sites. Conversely, any suitable land already considered to have housing potential carries too high a value to permit a meaningful contribution to be made- i.e. for a house to be affordable, the site it's to be built on must be valued at less than £50,000. The Plan recognises this and, whilst including a policy statement, will actively resist any attempt to circumvent the aim to serve the families of people already established in Poundstock.

Priority rating- Perceived as High but not within PPC direct control at present.

Sustainability rating: Ticks "Housing" and "Social Equity and Opportunity" boxes by providing safe and warm homes and will act towards improving facilities, services and opportunities for all.

THE BUILT ENVIRONMENT POLICY 3

WHAT THIS MEANS AND WHY: Historically gas has been the cheapest and preferred means of heating and cooking although this is now changing with rising fuel costs. Nearly two thirds of respondents expressed an interest in connection to a mains supply if one were available.

Priority rating- Medium

Sustainability rating: Potential to tick "Managing the Environment & Resources box by alerting people to a more sustainable use of resources."

THE BUILT ENVIRONMENT POLICY 4.

WHAT THIS MEANS AND WHY. Of all the alternative means of generating electricity, by far the most favoured was wave and tidal power. Continued use of burning fossil fuels was well supported. Although single mast wind generators received 80% opposition, they were highly rated at the prioritisation event which points to the need for each application to be considered on its merits. Sustainability rating: [suggest ticks Managing the Environment & Resources box]

Priority rating: n/a because implementation will result from external (planning) applications.

Sustainability rating: Potential to tick "Managing the Environment & Resources " box by recommending approval of proposals which promote use of renewable energy.

WHAT THIS MEANS AND WHY. By a majority of nearly 6 to 1 from those who expressed a view, more dog waste bins were wanted. However, opinion was equally divided on where was the greatest need, and some sites were suggested that had not even been examined.

Priority rating- Low (due to overall numbers responding on this issue)

WHAT THIS MEANS AND WHY. More litter bins were wanted by a substantial number, but by fewer than for dog bins. Again, opinion was equally divided on where was the greatest need, and it seems sensible to consider this in conjunction with the other problem.

Priority rating- Low

Sustainability rating: ticks "Managing the Environment & Resources" box by enhancing enjoyment of open spaces.

Mothering Sunday						

Dear Friends

I was first elected in May 2003 and subsequently re-elected in 2007. I will cease to represent you with effect from midnight on 31st March when NCDC will be absorbed into the "One Cornwall" authority . As you are aware NCDC has been responsible for a multitude of services. These responsibilities will now pass to the new caretaker authority. The role of representing *you* will be taken on by your present County Councillor Bob Booker who will assume the dual task on 1st April. He is very experienced, having been a District Councillor in the past, and will carry on in this role until elections, probably in October.

Although I was not in favour of this reorganisation, I wish it well. We must all make it work! A lot of my work has involved individual private problems where I have tried to help. One of the more noteworthy events was the 2004 flood which badly affected New Mills and Woolston Mill. Among many others, I was pleased to help the Parish obtain funding for this Parish Plan, to assist the Gildhouse Committee with its projects and to be associated with the disabled-friendly new footpath just over the Parish border at Lower Longbeak. Throughout my term of office I have campaigned (with our MP, Parish Councillors and County Councillor Bob Booker) for improvements along the A39- particularly the Black Spot of Helscott Corner. Thankfully this particular scheme is completed BUT there is much more improvement needed.

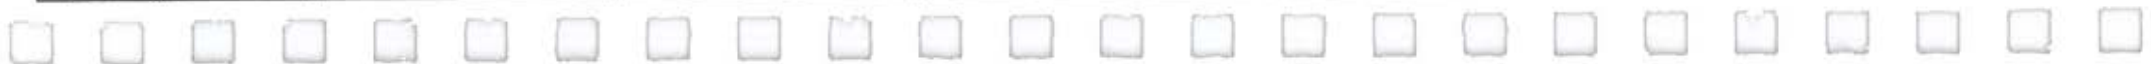

I have greatly enjoyed representing the Parish of Poundstock (with Launcells and Marhamchurch). It has some of the most lovely scenery and people. The Parish Council is a very dedicated group who look after you well. They certainly have held me to full account but they are a delight to work with. It has been a pleasure to serve you. My good wishes to you *onen hag oll!*

Tony.

FAREWELL TO OUR
DISTRICT COUNCILLOR
TONY EDWARDS

MARCH			WEEK 14			APRIL	
SUN	MON	TUE	WED	THU	FRI	SAT	
29	30	31	1	2	3	4	
British Summer time begins							

HEALTH POLICY 2.

WHAT THIS MEANS AND WHY. This concern did not feature in the Questionnaire, but since then the use of rechargeable batteries has grown and these cannot be disposed of safely by normal means because of the cadmium and mercury pollutants which they contain. When the new Unitary Authority takes over responsibility for waste disposal, this is seen as an appropriate matter to raise with them

Priority rating- medium

Sustainability rating: ticks "Managing the Environment and Resources", "Health" and "Sending Right Signals" boxes through drawing awareness to the dangers of heavy metals entering the atmosphere and the food chain through careless waste disposal processes

BUSINESS POLICY 1.

WHAT THIS MEANS AND WHY. Questions relating to business in the Parish generated a large positive response. There appears to be a substantial interest in seeking employment locally and vacancies exist for part time and full time staff.

Priority rating- Medium- elevated by sustainability considerations.

Sustainability rating: ticks "Sustainable Economy" box through assisting businesses to set up and grow, and impacts on "Building Sustainable Communities, and both "Transport" and "Sending the Right Signals" by potential to reduce commuting and alert people to local opportunities.

WHAT THIS MEANS AND WHY: Whilst the majority of people would be happy to see more visitors to Poundstock, general opinion was that accommodation was adequate and the split between self-catering and hotel/guest house availability was adequate.

Priority rating- n/a [passive reaction as opposed to active promotion]

Sustainability rating: ticks "Sustainable Economy" box by benefiting income from tourist activities, and has potential to tick Health box through outdoor activities associated with tourism.

BUSINESS POLICY 4.

Although supported by only 47 respondents, this received three star ratings at the Prioritisation Event and meets several of the Sustainability Criteria.

Priority rating- low

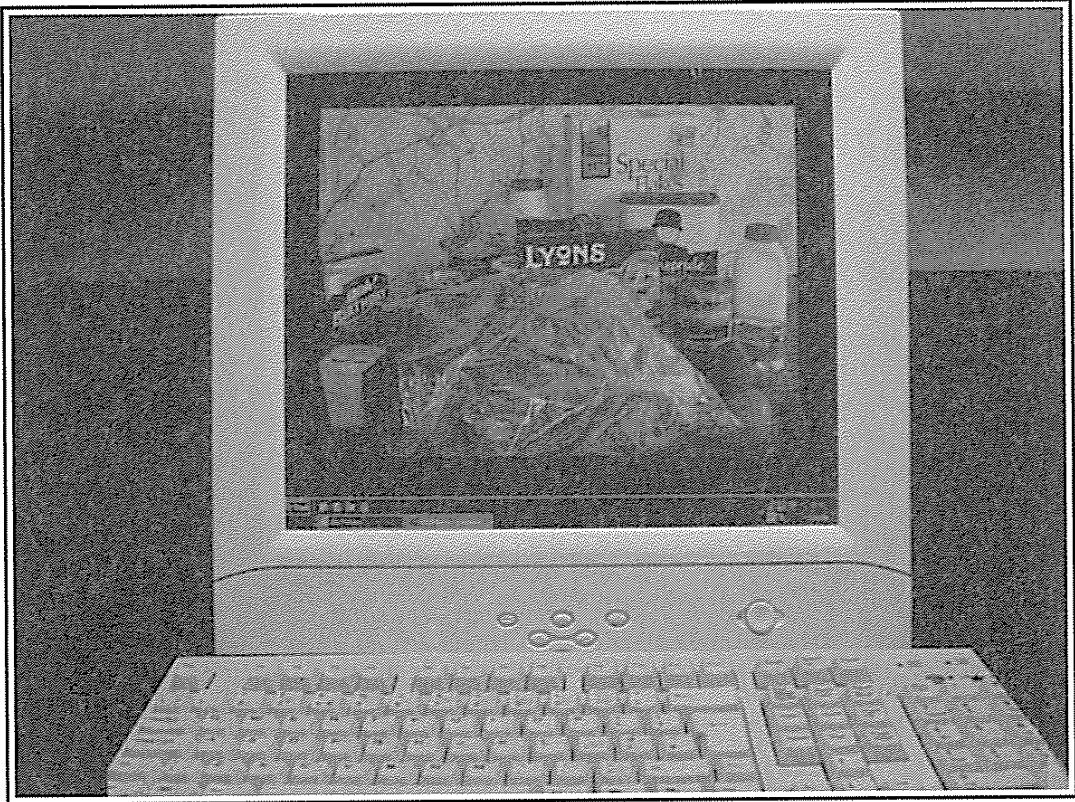

Suggest Sustainability rating: ticks "Sustainable Economy", "Transport" and "Sending the Right Signals" boxes by supporting awareness of opportunities to reduce carbon footprint through use of new technology.

TRANSPORT POLICY 1

WHAT THIS MEANS AND WHY: These policies are designed to make public transport more attractive and address some of the problems encountered. People have experienced discomfort where shelters are provided and bus drivers who are unfamiliar with the stopping places have frequently failed to pick people up.

Priority rating- high

Sustainability rating: ticks "Managing the Environment and Resources" and "Transport" boxes by making public transport more attractive, in the process contributing to reduced pollution.

TRANSPORT POLICY 1

THE PARISH COUNCIL WILL SEEK TO ACHIEVE THE FOLLOWING:

BUS STOPPING PLACES SHOULD BE IDENTIFIED BY ROAD MARKINGS AND/OR POSTS

AN ANNUAL MAINTENANCE CONTRACT TO CLEAN AND REPORT ON CONDITIONS OF SHELTERS SHOULD BE PUT IN PLACE

SHELTERS SHOULD BE FITTED WITH A HORIZONTAL BAR AT A SUITABLE HEIGHT FOR RESTING ON. [continued over page]

TRANSPORT POLICY 2.

WHAT THIS MEANS AND WHY:

These proposals were actively supported at the Prioritisation Event and figured highly in the Questionnaire responses. Together with the other proposals, they will improve conditions for existing users as well as promoting the use of public transport for residents and holiday makers.

Priority rating- high

Sustainability rating: ticks "Managing the Environment and Resources" and "Transport" boxes by making public transport more attractive, in the process contributing to reduced pollution.

17 Battle of Stamford Hill Spring Hedge Cut	18	19	20	21	22	23 Poundstock Revel

ROAD SAFETY POLICY 1

WHAT THIS MEANS AND WHY: Hedgerows and verges support a diverse range of wildlife. The issue of maintenance sparked the greatest controversy of any matter raised in the Questionnaire. By a factor of 20 to 1, safety was identified as the main problem but at the Prioritisation Event opinion was almost evenly split. It is recognised that improved verge maintenance where there is frequent pedestrian movement should be a high priority and the Parish Council will press for more frequent cutting.

Priority rating: High

Sustainability rating: ticks "Managing the Environment & Resources" , "Transport" and "Health" boxes. by balancing contrasting needs and making walking a more attractive alternative.

ROAD SAFETY POLICY 2.

WHAT THIS MEANS AND WHY: Hedgerows which intrude into the highway damage vehicles, can cause injury to pedestrians and cyclists but are an attractive feature which tends to restrict vehicle speeds. The Parish Council will intervene where a problem is perceived and has taken note of the sites which give cause for the greatest concern.

Priority rating: High

Sustainability rating: ticks "Managing the Environment & Resources" box by protecting wildlife habitats.

ROAD SAFETY POLICY 3.

WHAT THIS MEANS AND WHY: Illuminated signs which react to vehicles' speed can be effective when used in locations where drivers are inadvertently driving too fast. The community can engage in operation of measures but there are financial costs. Nearly 80% of respondents supported this approach although the Police have to have evidence that speeding constitutes a serious danger.

Priority rating: High

Sustainability rating: ticks "Building Sustainable Community" and "Transport" boxes by reducing concern about speeding and improving conditions for pedestrians and other road users.

ROAD SAFETY POLICY 4.

WHAT THIS MEANS AND WHY: Although there was support for a reduced speed limit on the whole of the former Trunk road, Dimma was identified at the Prioritisation Event as the worst spot. Ultimately it will be the Authorities who decide if restrictions should be applied in the three locations supported by residents, either individually or in conjunction with a reduced limit over the whole of the road within this Parish.

Priority rating: Medium

Sustainability rating: ticks "Building Sustainable Community" and "Transport" boxes by reducing concern about speeding and improving conditions for pedestrians and other road users.

WEEK 25						JUNE
SUN	MON	TUE	WED	THU	FRI	SAT
14	15	16	17	18	19	20

ROAD SAFETY POLICY 5.

WHAT THIS MEANS AND WHY: Roughly 80% of respondents supported these propositions, although attention has also been drawn to the lack of facilities in the Dimma area. As most pedestrians know, one should always walk along a road facing the traffic. On a busy road this can necessitate crossing twice, in the process exposing oneself to danger. On the A39, therefore, it would be preferable to seek two footways, whereas Marine Drive would benefit from a combined footway and cyclepath sought also as a Recreation facility.

Priority rating: High

Sustainability rating: suggest ticks "Sustainable Economy" box by improving conditions for holiday makers at the nearby caravan sites the "Health" box by making walking safer and more attractive.

RECREATION & LEISURE POLICY 1.

WHAT THIS MEANS AND WHY: Marine Drive benefits from an alignment which encourages high speeds. It has not been easy to secure regular verge maintenance, which gives rise to problems for pedestrians. Its width is inadequate for two vehicles to pass where there is a cyclist. Also, the scenery is such that both cyclists and pedestrians would benefit from a well-aligned and easy gradient path.

Priority rating: High

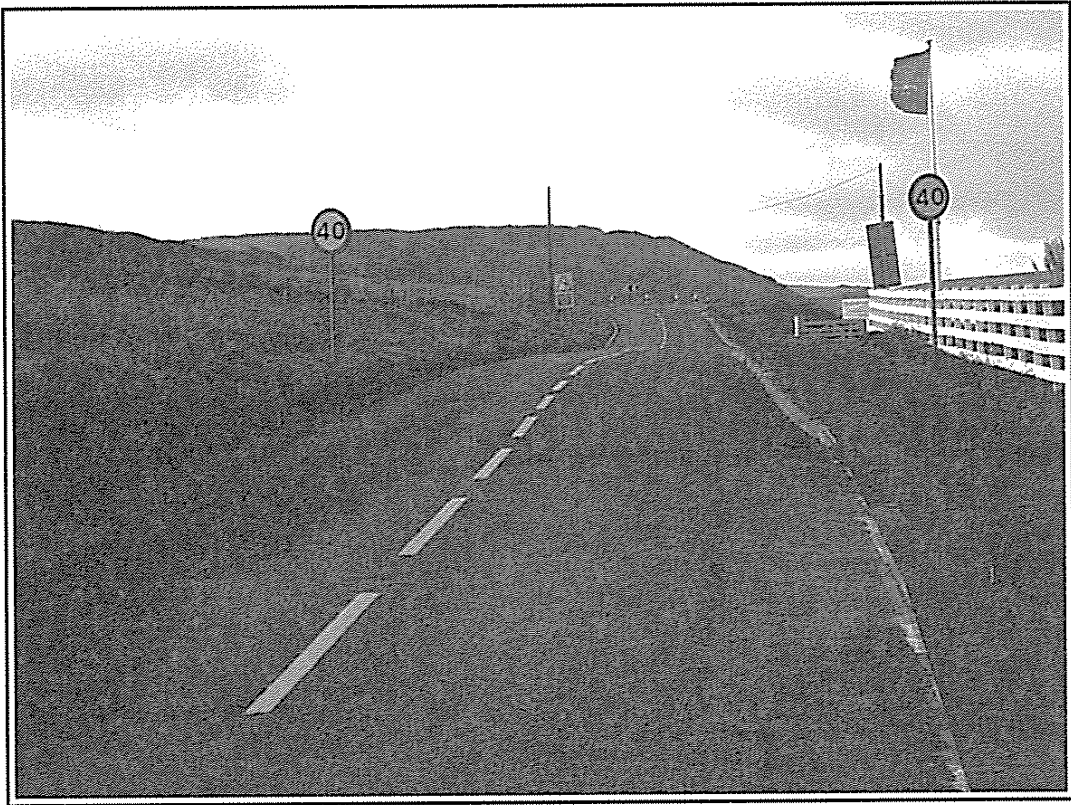

Sustainability rating: Suggest ticks the "Sustainable Economy" "Transport" and "Health" boxes by promoting Poundstock as an attractive holiday destination and making conditions more conducive to cycling.

RECREATION & LEISURE POLICY 2.

WHAT THIS MEANS AND WHY: Opinion was fairly evenly split on this issue, although the Prioritisation Event produced strong support for a review. Local people use the beach as a highway to and from the shop. They are denied this in the summer months and it is a source of annoyance when visitors are seen to be ignoring the ban. Dogs on leads would satisfy these concerns.

Priority rating: Medium

Sustainability rating: Suggest ticks "Building Sustainable Communities" box by reducing a controversial aspect of "them and us" both within the community and with visitors during the holiday season.

RECREATION & LEISURE POLICY 3.

WHAT THIS MEANS AND WHY: By a majority of 5 to 1, those who expressed a view would like to see some sort of recreation facility, and the Prioritisation Event showed that both children and adults see this as a high priority. 267 out of the 389 who responded to the Parish Hall Appendix are also in favour, although a suitable location has to be sought.

Priority rating: High

Sustainability rating: ticks "Building Sustainable Community" and "Health" boxes by reducing need to travel and by reducing inactivity.

RECREATION & LEISURE POLICY 4.

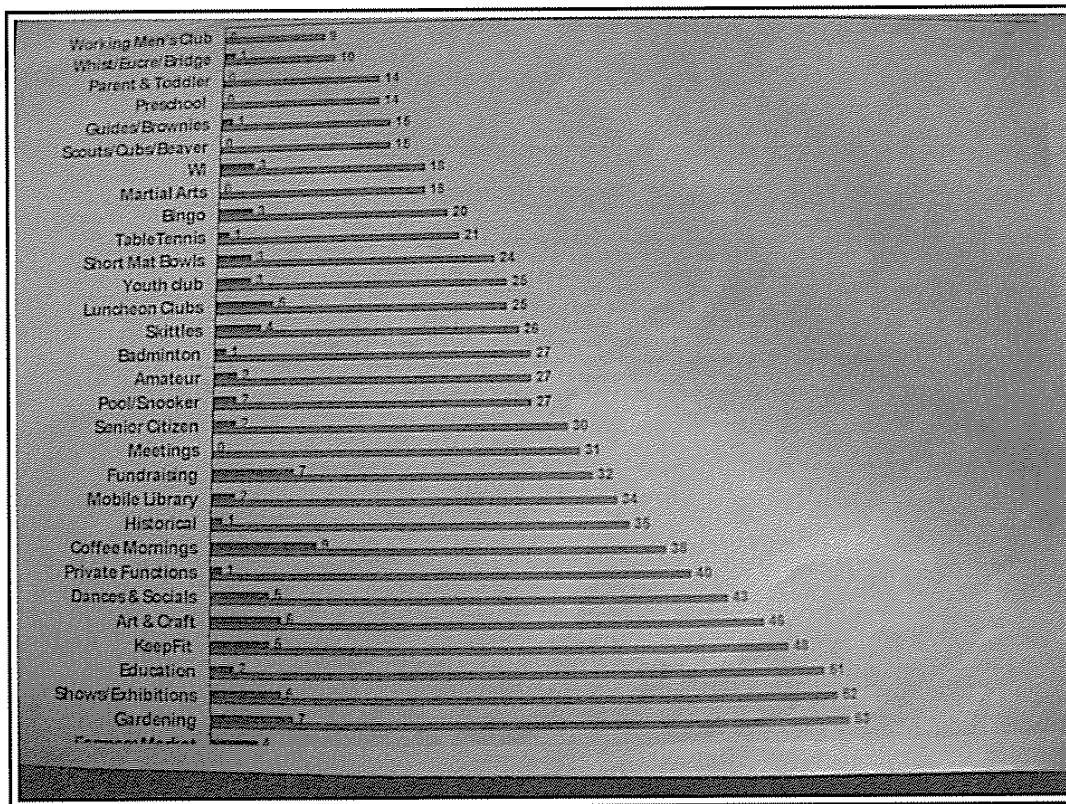

WHAT THIS MEANS AND WHY: There are many reasons for people to disengage with the community. It was clearly demonstrated in the "Parish Hall" responses in the Questionnaire that there is a collective wish for more activities but there has been in the past little initiative.. This needs to be addressed for the future well-being of our Parish and the high level of indicated commitment to assist makes this an urgent aspect of this Plan .

Priority rating: High

Sustainability rating: ticks "Building Sustainable Community" box by engendering a cohesive and improved sense of community and "Health" box by increased participation in outdoor activities.

Any development should build on the cultural and entertainment value of this facility rather than remove a vital community asset.

WHAT THIS MEANS AND WHY: Over 95% of respondents supported the principle of a new hall. This received the highest star rating at the Prioritisation Event. Every way of achieving this aim will be explored, including refurbishment which better meets "Sustainability" criteria.

Priority rating: High

Sustainability rating: ticks "Social Equity and Opportunity" and "Building Sustainable Communities", boxes by bringing people together and enhancing community spirit and has potential to meet "Buildings, Planning & Land Use" objectives through sensitive use of recyclable materials and carbon-neutral energy sources.

RECREATION & LEISURE POLICY 7.

WHAT THIS MEANS AND WHY:

If replacement of the parish hall is to be achieved, it would be necessary to seek a drinks license. This will be subject to further consultation. Although only just over a quarter of those who expressed a view were in favour of additional general licensed premises in Poundstock, the Parish Hall survey produced a very different response.

Priority rating: High

Sustainability rating: ticks "Building Sustainable Communities" and "Social Equity & Opportunity" boxes by seeking a firm financial foundation for a facility which will promote better community spirit to the benefit of all parishioners regardless of circumstances.

RECREATION & LEISURE POLICY 8.

WHAT THIS MEANS AND WHY: In addition to support for the Parish Hall, it is clear that more needs to be done to encourage use of the facilities which we now have. By a majority of two to one, there was support for "somewhere else to socialise". Hopefully the Parish Hall will fill a gap in the excellent facilities offered elsewhere in the Parish, but it is recognised that other opportunities to socialise need to be promoted.

Priority rating: Medium

Sustainability rating: ticks "Managing the Environment & Resources", "Social Equity and Opportunity", "Building Sustainable Communities", and "Sending Right Signals" boxes by enhancing community cohesiveness for all, regardless of circumstances and making better use of what we have. Could even reduce need to travel.

INFORMATION POLICY 1.

WHAT THIS MEANS AND WHY: Few people supported the previous Survey Question about shopping on line although it received support at the Prioritisation Event. This, however is a matter of personal choice whereas a majority of people thought that it would help to know when mobile shops are visiting. As with Shopping on Line, this proposal would help reduce our "carbon footprints".

Priority rating: Medium

Sustainability rating: ticks "Building Sustainable Communities and "Transport" boxes by reducing the need to travel and encouraging people to gather together for shared benefit.

Priority rating: Medium

Sustainability rating: ticks "Health", "Transport" and "Social Equity & Opportunity" by promoting a beneficial outdoor activity, possibly making use of footpaths as means of getting about, and improving community access to information.

INFORMATION POLICY 4.

WHAT THIS MEANS AND WHY: This means what it says: notice boards have to be maintained if the information on them is to be kept up to date. The board opposite Madeira Drive is not easy to see (in the shelter) but was placed there to reduce the amount of street furniture in the vicinity. Care will be taken in siting future boards to ensure that they serve a genuine need and are accessible but are not obtrusive.

Priority rating: High

NEW NOTICE BOARDS WILL BE PROVIDED, SUBJECT TO FINANCE, AT ALL LOCATIONS WHICH CAN EASILY BE ACCESSED BY THE MAJORITY OF PARISHIONERS. [question 2.29 of the 2007 Questionnaire refers]

WEEK 38						SEPTEMBER
SUN	MON	TUE	WED	THU	FRI	SAT
13	14	15	16	17	18	19

INFORMATION POLICY 5.

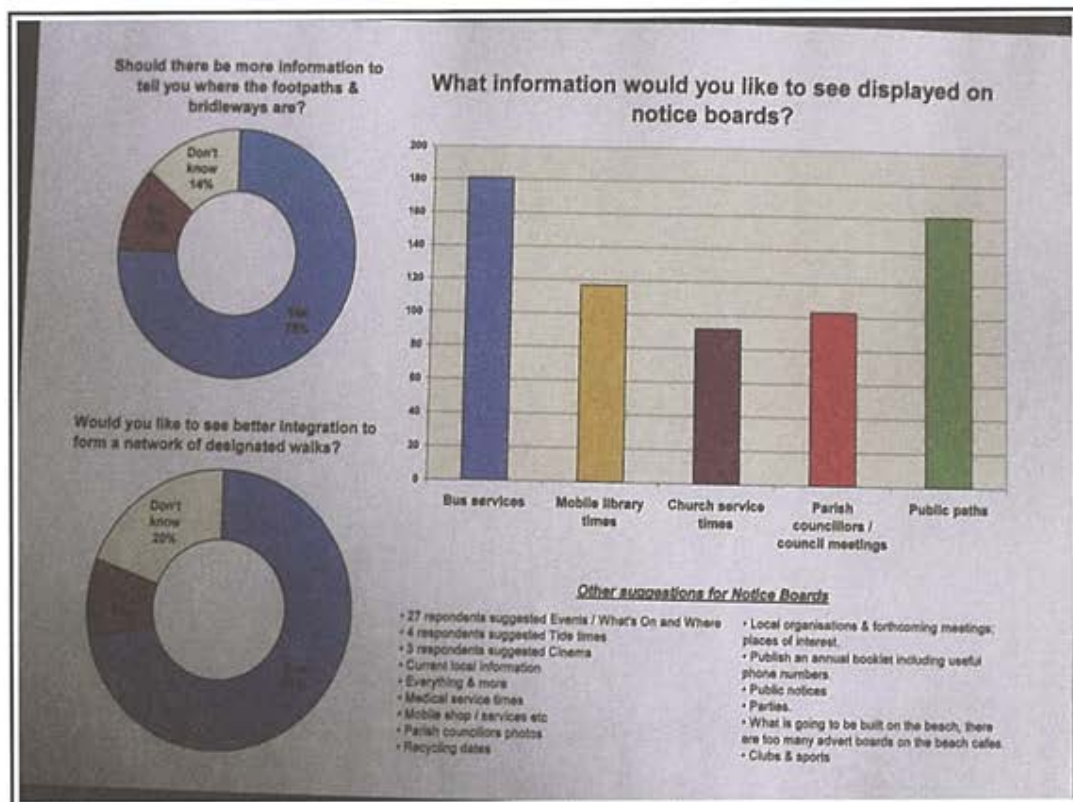

WHAT THIS MEANS AND WHY: A wide variety of topics each received support from over 100 households indicating that there is a wish to be better informed about what is going on. Procedures may have to be reviewed and even supplementary boards provided in some locations.

Priority rating: High

Sustainability rating: ticks "Social Equity & Opportunity" and "Building Sustainable Community" boxes by improving communication and making information available which will assist more people to participate in decision making thereby making for an improved sense of community.

WEEK 39							SEPTEMBER
SUN	MON	TUE	WED	THU	FRI	SAT	
20	21	22	23	24	25	26	

INFORMATION POLICY 6.

WHAT THIS MEANS AND WHY: With so many media distractions, there is a growing failure of communication by word of mouth. There have been many changes in the last fifty years which will go unrecorded unless active steps are taken to build up a history of the Parish. Although not identified as a priority, respondents were nearly unanimous in their support for this suggestion.

Priority rating: Low

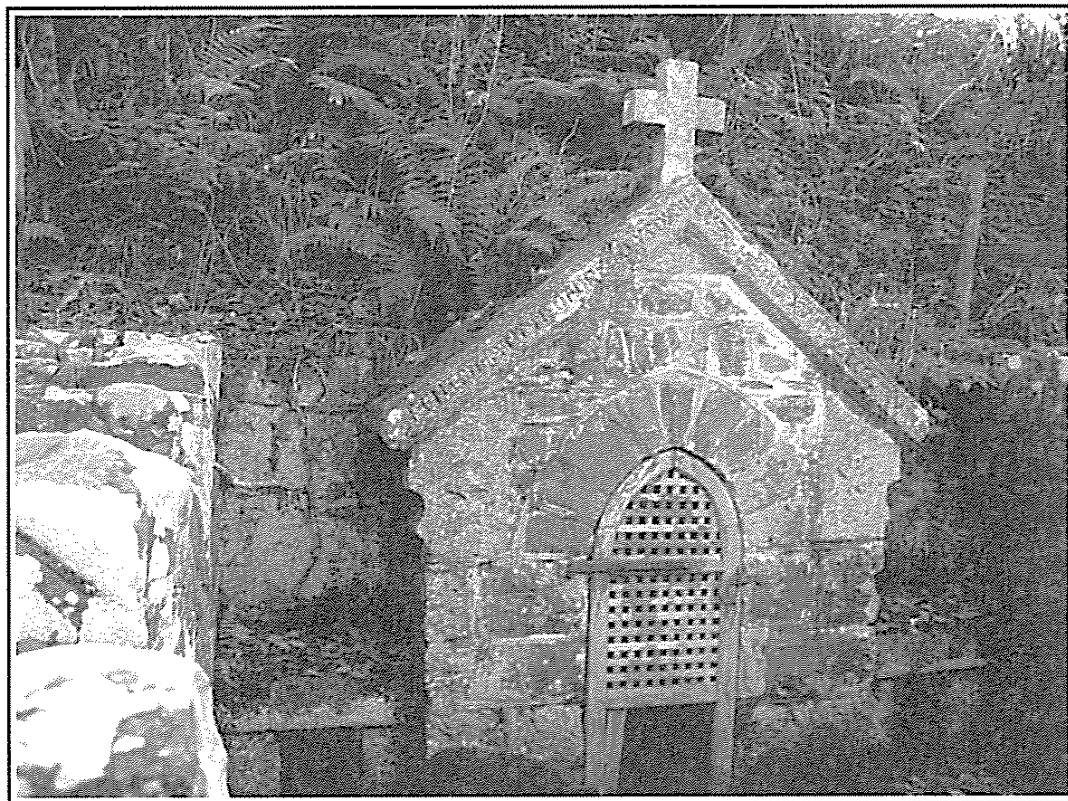

Sustainability rating: ticks "Social Equity & Opportunity" box by engendering a sense of community through improved knowledge of how Poundstock has reached where it is.

INFORMATION POLICY 7.

WHAT THIS MEANS AND WHY: The majority of respondents support recycling of waste and value kerbside collection, although more travel to Bude than use the facility at Widemouth.

Priority rating: High

Sustainability rating: ticks "Managing Environment & Resources" and "Transport" boxes by drawing to people's attention the availability of recycling facilities within the Parish thereby reducing the distance travelled if solely for this purpose.

PEOPLE WILL BE ENCOURAGED TO MAKE FULLER USE OF THE RECYCLING FACILITY AT WIDEMOUTH BAY'S PUBLIC CAR PARK.
[6* in all]

WEEK 41						OCTOBER
SUN	MON	TUE	WED	THU	FRI	SAT
4	5	6	7	8	9	10

SOCIAL EQUITY POLICY 1.

WHAT THIS MEANS AND WHY: A majority supported this suggestion, although nearly one third of respondents expressed no opinion. It appears inequitable to some parishioners that free access to the public car park at Widemouth is available only to those who live near enough to walk to it. The creation of the new unitary authority will require this topic to receive further consideration in due course.

Priority rating: Low

Sustainability rating: ticks "Social Equity & Opportunity" box by making available to all parishioners a facility which is currently freely accessible to only some.

SOCIAL EQUITY POLICY 2.

WHAT THIS MEANS AND WHY: Although support for the Parish Council's actions in donating to specified charities received almost unanimous approval, many suggestions were received for other deserving local causes. This merits discussion and careful consideration.

Priority rating: Medium

Sustainability rating: ticks "Social Equity & Opportunity" and "Sending Right Signals" boxes by potential to assist disadvantaged groups which have particular relevance to Poundstock and by encouraging others to contribute their time and resources.

WHAT THIS MEANS AND WHY: It is easy to overlook something which is in danger of being taken for granted. The Packet is of direct relevance to Poundstock, promotes business within the Parish and engenders a community spirit through the articles within its pages.

Priority rating: High

Sustainability rating: ticks "Sustainable Community" "Social Equity & Opportunity" and "Sending Right Signals" boxes by drawing attention to a unique source of information which is free to everyone and is a valued asset in bringing the divergent communities of Poundstock together.

SOCIAL EQUITY POLICY 4:

WHAT THIS MEANS AND WHY Although almost as many people voiced no opinion as supported this facility, those who did not think it would be a good idea were outnumbered by a factor of three to one. It is understood that a playgroup failed in the past, but it is possible that the demand now is greater and this needs to be investigated.

Priority rating medium.

Sustainability rating: Meets "Building Sustainable Communities" & "Social Equity and Opportunity" criteria by bringing all ages together in a mutual support situation.

STATEMENT 1:

This statement is included for information. Most people expressed an opinion and only roughly a dozen separated the supporters from the opposers. More Widemouth Bay respondents were in favour of a name change than Poundstock villagers, but it was felt that in view of substantial opposition, it was unprofitable to include this as an item for further discussion at this stage.

Little potential to meet Sustainability Criteria and could be divisive in the light of responses.

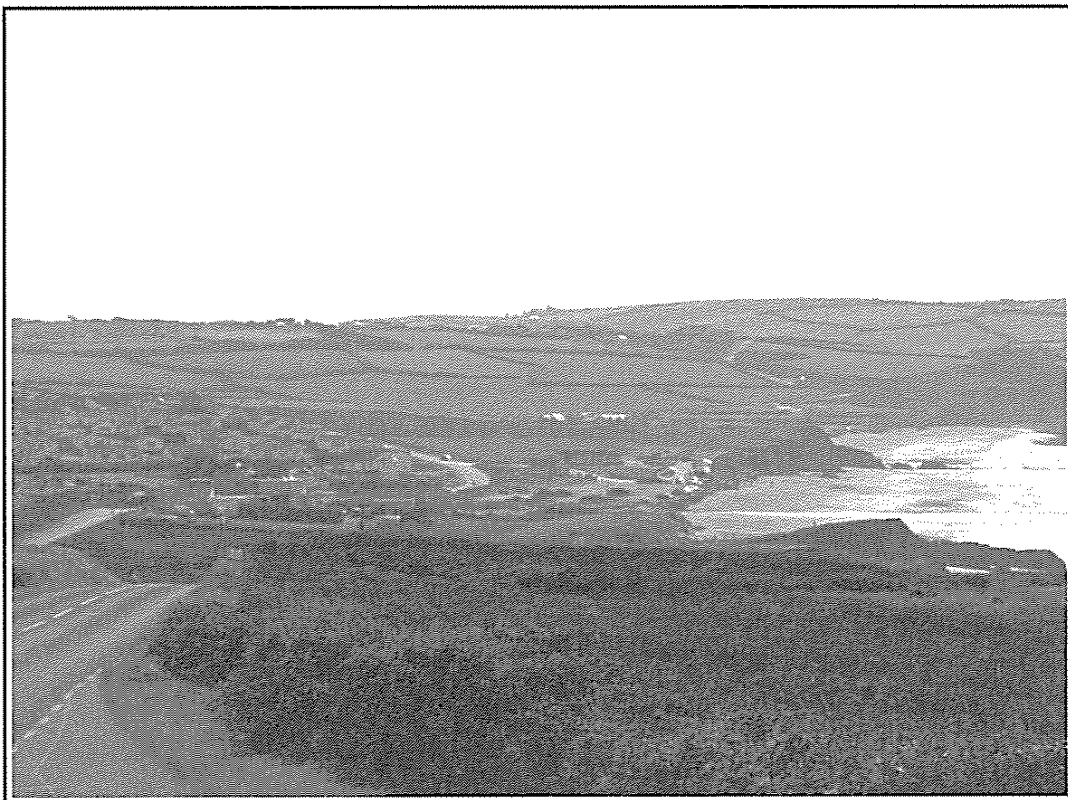

STATEMENT 2:

Surprisingly, as many people who were in favour of an annual event expressed no opinion and some claimed that they didn't even know we had had three! [One person expressed the view that this was a "disgraceful suggestion"!] The benefits of such an occasion must be available to everyone before revenue from taxes can be spent in this manner and because no guarantee that suitable arrangements could be made to accommodate everyone's wishes, this issue will not be proceeded with.

Could meet Sustainability Criteria in respect of "Building Sustainable Communities" and "Social Equity & Opportunity" boxes but needs unanimous support.

STATEMENT 3:

On the face of it this may seem a negative response but no majority support for more waiting restrictions was expressed. There are two principal concerns: environmental [mainly due to visitors and adjacent residents] and road safety. Traffic undoubtedly travels faster where there are no obstructions and parked cars are an effective way of ensuring that drivers (and pedestrians) remain alert.

Little potential to meet Sustainability Criteria and yellow lines for environmental reasons could be divisive.

STATEMENT 4

It was generally agreed that the current facilities are adequate although some felt that certain locations on the A39 could benefit from a public convenience. However, such is the volume of passing traffic that such provision could pose more problems than it solves. No action will therefore be taken.

Little potential to meet Sustainability Criteria and could be a drain on resources as a result of vandalism.

At present, it is unrealistic to expect bus services which would meet widely diverging needs. Only 40 respondents regularly use public transport and only that number were satisfied with the service. It will be up to the operators to draw their own conclusions and to take any action. [95 people expressed dissatisfaction.]

Priority rating- n/a [passive reaction as opposed to active promotion but see "Information" above.]

PROGRESS REVIEW

Highest priorities

The built environment policy 1 The parish council will investigate ways of establishing a sustainable focus for Poundstock

Recreation & leisure policy 6. The parish council will use every endeavour to create an inviting and friendly meeting place at the parish hall. [10*]

Recreation & leisure policy 3. The parish council notes the wishes of people of all ages and will investigate the provision of a playing field as a matter of the highest priority. (This was also identified in young peoples' response.

High priority

The built environment policy 2. The parish council will support any sensitively framed proposal for affordable housing and will actively consider means of promoting new homes at affordable prices for people with local connections

Business policy 3. The parish council will support and investigate promotion of the unique features which Poundstock offers

Transport policy 1. The parish council will seek to achieve the following:

Bus stopping places should be identified by road markings and/or posts

An annual maintenance contract to clean and report on conditions of shelters should be put in place

Shelters should be fitted with a horizontal bar at a suitable height for resting on

Transport policy 2. The parish council will seek to achieve the following:

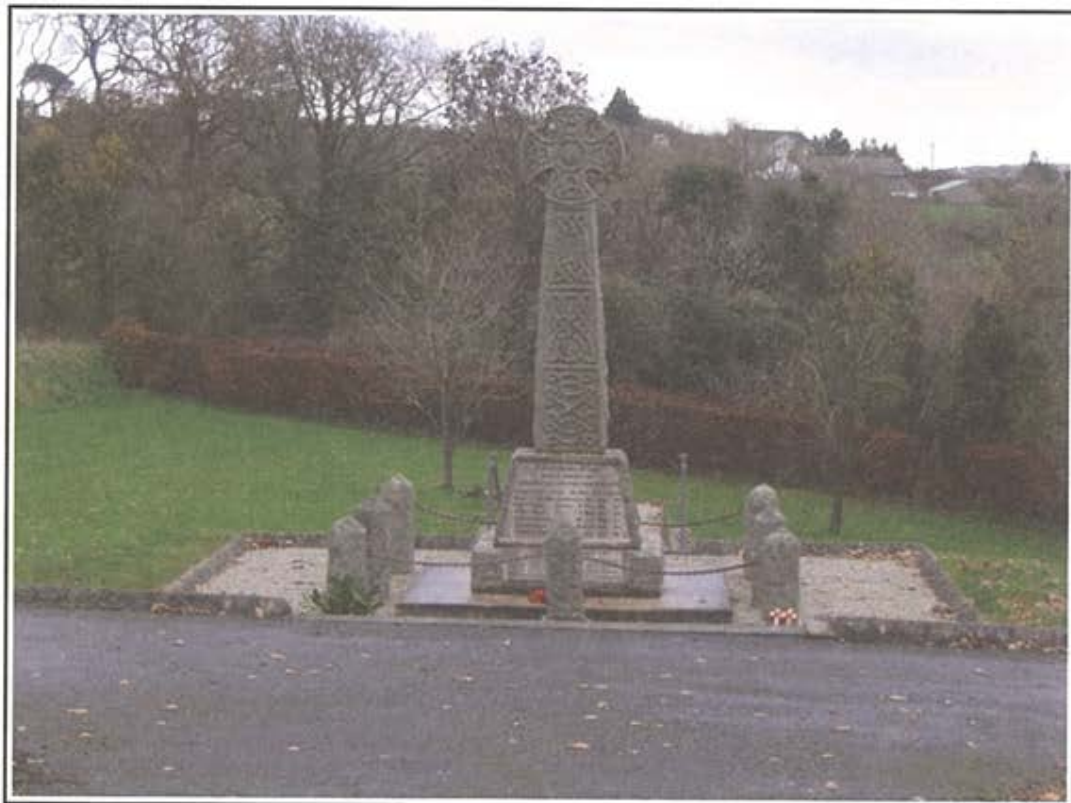

The provision of new bus shelters in marine drive at the end of Leverlake road and at the Tregole Trewint turning off the a39. [****]

The transport operator will be encouraged to provide a seasonal bus stop at the Cornish coasts site.

Road safety policy 1 emphasis will be placed on securing regular verge cutting where improved pedestrian movement is an issue whilst recognising the needs of wildlife.

Road safety policy 2. Environmentally sensitive treatment of the wildlife habitat of living hedges will be undertaken without compromising the safety of road users.

Road safety policy 3. The parish council will approach the appropriate authorities to obtain radar-controlled signs at suitable locations

PROGRESS REVIEW

2009 is nearly over and it is time to look at what has (or has not) been achieved so far in the five year life of The Parish Plan. It doesn't necessarily follow that progress will reflect the priority allocated, because some things will be more easily achieved than the bigger issues. In the next 3 weeks you might like to reflect on these and, at the end of the year, let the Parish Plan Team know your views.

PROGRESS REVIEW cont'd....

Road safety policy 5. The county council will be pressed to investigate the feasibility and cost of providing footways on the A39 between Bangors and Treskinnick cross and from Fowlers Caravan Park to Widemouth Manor.

Recreation & leisure policy 1. The parish council will use every endeavour to achieve the construction of a footway/cyclepath parallel to marine drive because of its potential contribution to road safety, enjoyment of the unique landscape and its value for the tourist trade

Recreation & leisure policy 4. The parish council will actively support and promote a wide range of outdoor & indoor activities in the light of comments received.

Recreation & leisure policy 7. In order to provide a sound financial foundation to sustain the parish hall, the implications of seeking of a drinks license will be investigated.

Information policy 4. New notice boards will be provided, subject to finance, at all locations which can easily be accessed by the majority of parishioners.

Information policy 5. The parish council will endeavour to ensure that notice boards carry all information which is of relevance to the community.

Information policy 7. People will be encouraged to make fuller use of the recycling facility at Widemouth bay's public car park

Social equity policy 3. The parish council values the contribution to the community made by the Poundstock Packet magazine. In appreciation of its good work, it will make an annual donation for its support during the lifetime of this plan.

Medium priority

The built environment policy 3 the parish council will seek a response from the appropriate source on the feasibility of connecting Poundstock homes to the national gas supply and will investigate & publicise information on alternative renewable energy options.

Recreation & leisure policy 8. Opportunities to socialise in environments appropriate to the occasion will be encouraged.

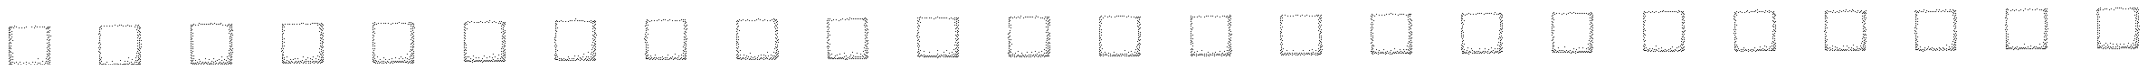

Health policy 1. Contact will be established with the appropriate authority to establish if blood pressure tests can be transferred from the health clinic to the premises at the bowling green.

Health policy 2. The parish council will press for a dry cell battery collection point to be provided at Widemouth bay public car park.

PROGRESS REVIEW cont'd ...

WEEK 50					DECEMBER	
SUN	MON	TUE	WED	THU	FRI	SAT
6	7	8	9	10	11	12

PROGRESS REVIEW cont'd....

Business policy 1. Dialogue will be opened with local businesses to establish how they would like to promote their operations through the auspices of the parish council and identify availability of local staff

Road safety policy 4. The parish council will initiate discussions with the appropriate authorities to resolve what is identified as a major cause for concern with respect to traffic speed on the former trunk road

Recreation & leisure policy 2. The parish council will press for an early review of the outright ban of dogs on the beach in summer months and will seek further consultation.

Information policy 1. Operators of mobile shops will be encouraged to supply details of their schedules for display on village notice boards.

Information policy 2. The parish council will investigate ways of publicising public rights of way and will press ahead with a review of their current status and condition

Social equity policy 2. The issue of charitable donations will be the subject of a special report to the parish council.

Social equity policy 4: the parish council will work with the community and the appropriate authorities to investigate the support for and the setting up of a children's playgroup

Low priority

The built environment policy 5 a review of the provision of dog waste bins will be undertaken and provision made following discussion with the appropriate authorities.

The built environment policy 6. A review of the provision of litter bins will be undertaken and provision made in suitable locations following discussion with the appropriate authorities

Business policy 4. The parish council will support and investigate promotion of on-line shopping through publicity of appropriate web-sites.

Information policy 3. The parish council will support but not actively promote a Poundstock website although the issue will be kept under review.

Information policy 6. The parish council will seek the establishment of the post (unpaid) of parish archivist.

Social equity policy 1. Concessionary parking is an issue which will receive further consideration when the unitary authority's new functions are defined.

This calendar has lasted a year. We hope it has been useful and that you will keep it to refer to from time to time.. Sometimes change is inevitable and we are very conscious of the fact that we are here to reflect your view. We can only guess at that if you don't keep in touch, and even then, the local authorities do not always accept what we would like them to do.

It is more important still, now that the District Council is no longer, that we can make our voices heard. If you want to discuss anything, please do not hesitate to contact us. If you don't know who can be the most help to you, our Parish Clerk will try to point you in the right direction.

The Season's Greetings to you all from your Parish Councillors. We wish you a Happy Christmas and a prosperous New Year.

SEASON'S GREETINGS

WEEK 52					DECEMBER	
SUN	MON	TUE	WED	THU	FRI	SAT
20	21	22	23	24	25 Christmas Day	26 Boxing Day

Now that you have had time to digest the year's progress, you may like to make your views known.

Of course, some of the Parish Council's work involves reaction to outside stimuli, usually in planning [development control] matters. A statement of the Parish Council's responses to the following issues will be made at its next meeting. We hope you'll be there.

The Built Environment Policy 4. The views expressed through the energy generation consultation will be borne in mind when considering any proposal

Business Policy 2. With the exception of tourist accommodation, the parish council will support sensitively prepared proposals for development of the tourist trade provided that they do not impinge on the quality of living enjoyed by Poundstock residents

Recreation & Leisure Policy 5. The parish council will oppose any scheme to replace the cinema with development with no recreational use.

Our best wishes for the New Year and if you would like to make any comments on matters raised in this Parish Plan, please send them to Poundstock Parish Council, The Parish Clerk at Trevoulter Barton, Poundstock, Bude, Cornwall EX23 0DH
